Accessible document template

Conforming to PDF/UA-1 (ISO 14289-1)

OVERVIEW

Everything on this page is reachable by a screen reader in a defined order. The headings below can be navigated directly, the list is announced as a list with a count, the table's cells know which headers govern them, and the chart carries a description of what it shows.

CHECKLIST

- Tag every piece of content, or mark it as an artifact.
- Give figures alternative text describing what they convey.
- Give table header cells a scope, so cells can be related to them.
- Set the document language and title.

WHAT EACH RULE NEEDS

Requirement	Clause	Satisfied by
Document language	7.2	set_language/2
Logical structure	7.1	tag/4
Alternative text	7.3	:alt on a figure
Table headers	7.5	:scope on a header cell

AN EXAMPLE FIGURE

Figure 1 — each requirement builds on the last.

the PDF/UA specification

Note — clause numbers here are read from veraPDF's validation profiles.
