Calibration acceptance

NGI-CA-0388 · Northgate Instruments Ltd

The calibration

The pressure gauge NGI-PG-1142 was calibrated on 3 November 2026 against the laboratory's reference standard, at seven points across its range. Every reading fell within the tolerance its specification states, and the certificate NGI-C-4471 records the results.

Acceptance

By signing below, the approving engineer accepts the calibration and releases the instrument for use until its next calibration falls due.
